Help stop the war before it starts!

After the devastating Gulf War, which killed 200,000 Iraqis, and 12 years of genocidal sanctions which have taken the lives of over 1.5 million Iraqi civilians, the Bush administration is trying to launch a new all-out military aggression against Iraq. Bush and his fellow corporate cronies are also trying to turn their "endless war" on workers, using the cover of "Homeland Security" to justify government intervention in the labor movement. We must stop them in their tracks! On Sept. 14, join people across the U.S. to demand:

**Govt. Hands Off Our Unions!
Defend Civil Rights & Civil Liberties!
Stop Racist Scapegoating!
Money for Jobs, Healthcare, Housing,
Schools – NOT for War!**
