## No New War Against Iraq

The US war and twelve years of sanctions have killed over 1,000,000 Iraqi people, many of them children. Two chief weapons inspectors have resigned over the fraudulent policy of sanctions. Lift the sanctions now.

## Stop US Aid to Israel-No to Israeli Apartheid

In the past two years of the Al-Aksa Intifada, thousands of Palestinians have been killed. Protests continue against Israeli massacres, home demolitions, closures of cities and schools and ongoing displacement. Join the movement against the five to 12 billion dollars in U.S. aid.

## Divest from Israel Now

Exercise your power to make a difference. Boycott Israeli-made goods. Boycott US companies that invest in Israeli companies and do business with Israel. Divest universities from companies doing business with Israel.

## Support Palestinian People's Right to Return Home

Israel's campaign of displacement has made Palestinians the largest refugee population in the world. Uphold United Nations resolution 194 calling for the right to return.
