

You Are the Media

The **Santa Cruz Independent Media Center** is a place where every reader is also a reporter. Instead of relying on the corporate media to cover events and actions in our community, challenge yourself and make media on your own or with your friends. Just click **Publish** to add your article, photos, audio or video.

SC-IMC contributors cover local and global news -- issues such as police, labor struggles, education, environment, poverty, immigration, lgbti/queer and women's communities and much more!

In an age where information and news are so tightly managed and controlled by the corporate media, industry and government, a free, independent and alternative press is essential for any hope of creating a just world.

*Another world is possible,
but participation is mandatory.*
