

# THE STRIKE STARTS EARLY

SAN FRANCISCO, once a stronghold of the dispossessed, has become a playground for the rich and a living hell for those of us who can't keep up or have no interest in capitalist relations. Homelessness, gentrification, racist police murders, the displacement of all that is queer, outrageous rent prices, our list is endless: it is time to reclaim our playground.

**8PM**

**DOLORES PARK  
APRIL 30TH**

We call on our comrades from every corner of the Bay to descend upon Dolores Park for a ruckus street party to counter gentrification, capitalism, and the policing of our communities.
