

Come out to demand that Israel stop its attacks on Gaza and on all Palestinians.

**Tuesday, July 15, 2014,
4pm 16th & J Sts,
Sacramento**

Bring friends, colleagues, family!

On July 7, 2014, Israel began heavy bombing of Gaza that has killed over 165 people, 85% civilians as of 7-13-14. No Israeli have been killed

Also please call Congress & Obama:

As a taxpayer and moral human being, you want all U.S. funding and support for Israel's occupation of Palestine to stop immediately

- Israel's aerial bombing of Gaza is a war crime because it targets a civilian population & hospitals, it is disproportionate force and it is collective punishment.
- Israel's military is among the top 10 powerful; Palestinians have no army, no navy, no air force.
- Israel's 8-year siege on Gaza is a war crime of attacks on civilians, shooting farmers & fisherman, and a land, sea and air blockade.
- Israel's use of high powered aerial bombing with F-16s and drones is completely disproportional to any force needed to counter the firing of unsophisticated, largely ineffectual rockets. International law prohibits the use of such disproportional force.

WHAT IF YOUR NEIGHBORHOOD WAS A GIANT PRISON?

Imagine you've been stateless for 66 years, living under military occupation for the last 47, and under a devastating trade embargo for the last 8. Imagine that anyone around you could be arbitrarily executed without due process by the occupying army. Imagine you had absolutely no legal recourse for addressing your predicament. No people would tolerate such conditions forever, and neither will Palestinians.

**THAT'S WHY PALESTINIANS
ARE FIGHTING BACK**
