

# OPD: STOP DISRESPECTING OUR COMMUNITY

## We are not your props & photo ops

Why resist OPD's sad attempts to use this neighborhood to make themselves look good?

### 1. They celebrate violence

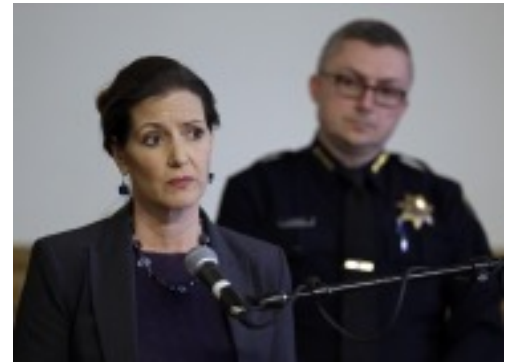

\*OPD hid out watching and doing nothing while people were getting shot on this very street.

\*They have a “bleed out” policy and will actively prevent EMTs or other health workers from helping shooting victims.

\*The most violent, sociopathic officers get the most awards from the department.

\*In 2015, OPD murdered 7 Black men. No one was held accountable.

**Oakland residents pay TENS of MILLIONS of dollars every year to settle lawsuits** brought by families against OPD for police brutality and murders. Mayor Libby Schaaf and DA Nancy O'Malley's backing of OPD have made this the only way these families can get justice.

### 2. They're corrupt and careless

\*Mysteriously, nobody in a management position has been charged or disciplined in the sexual exploitation and rape cases. Only rookie cops got in trouble . . .

\*OPD “accidentally” deleted 25% of their body camera footage.

\*Following the rape scandal of Jasmine, OPD cycled through 4 chiefs in 8 days. Every one of them was exposed as dirty and corrupt.

### 3. Our lives depend on it

\*They're wasting money we could be spending on schools, jobs and housing - the real solutions for crime prevention.

\*OPD's PR officer already tried to throw a “BBQ with Black people” to make the department look less terrible and they were told NO - We want real accountability and an end to the war on Black, Brown and poor people in this community.
