Paris (France), March 16, 2021,

Dear Governor Tom Wolf,

On behalf of the Democratic Independent Workers' Party (POID) of France, we urge you to order the immediate release and hospitalization of Pennsylvania's most well-known inmate in the world : Mumia Abu-Jamal.

As you know, Mumia Abu-Jamal has tested positive for COVID-19 and is being warehoused in a completely inadequate prison infirmary.

Given his age, 67, his liver disease, and his blood-pressure challenges, his life is seriously in danger.

Mumia needs to be released from prison.

The name of Mumia Abu-Jamal is known internationally, as it is known in our country by hundred of thousands of citizens. We add our voice to the growing clamor internationally, demanding Mumia's immediate release and transfer to a hospital for proper medical care.

Yours respectfully,

The national secretary of the Democratic Independent Workers Party
